

HUSBAND SAVES WIFE

From Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Pittsburgh, Pa.—"For many months I was not able to do my work owing to a weakness which caused backache and headaches. A friend called my attention to one of your newspaper advertisements and immediately my husband bought three bottles of Lydia E. Pinkham's Vegetable Compound for me. After taking two bottles I felt fine and my troubles caused by that weakness are a thing of the past. All women who suffer as I did should try Lydia E. Pinkham's Vegetable Compound."—Mrs. JAS. ROHRBERG, 620 Knapp St., N. S., Pittsburgh, Pa.

Women who suffer from any form of weakness, as indicated by displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues," should accept Mrs. Rohrborg's suggestion and give Lydia E. Pinkham's Vegetable Compound a thorough trial.

For over forty years it has been correcting such ailments. If you have mysterious complications write for advice to Lydia E. Pinkham Medicine Co., Lynn, Mass.

BLOCKADE WILL WIN FOR ALLIES

Much Depends on Economy at Home in Support of This Pressure on Enemy.

Rome, Feb. 5.—(Correspondence of the Associated Press.)—"The allies can win this war only by holding on, by the exertion of economic pressure on the central empires and by rigid economy at home," in the opinion of Dr. Massimo Pantaleoni, of the Italian army, who has just been exchanged after twenty months as a prisoner in Austria and Hungary. Dr. Pantaleoni, although Italian by birth, has many relatives in the United States.

"The secret of winning the war," said Dr. Pantaleoni, "remains in the blockade and in the allies at home exercising the greatest economy, but so organizing that economy in the way of limitation of consumption of foods and fuels and clothes that people will not be compelled to lose several hours of their time each day searching for coal, or bread, or such articles."

"It is like passing from darkness into daylight on leaving Austria, where the stores are empty of all useful articles, cloth sells at about the equivalent of \$25 a yard, where leather shoes sell for 120 kronen the pair, where there is no sugar at all for sale, where the bread rate for the civil population is two and a half ounces for each per-

AMERICA BROUGHT BACK THE SMILE

son per day, where the fat ration is one quarter of an ounce and where potatoes sell for 20 cents a pound instead of 2 cents a pound before the war.

Mortality Increased.
"In Austria mortality has increased very much since a year ago because

of poor or no nourishment leading to rheumatism and dysentery, and when people die there are no coffins in which to bury them. Instead, their shrouds and good clothes are replaced by rags and in these they are buried.

"Living conditions have not been improved by the taking of Rumania. While in Hungary attending Italian prisoners, who had been sent as far away as possible from the Isonzo front so they could not escape and go home, Rumanians told me civil conditions had been such in Rumania that the fields had not been worked and therefore the crops had been poor.

"As regards the entrance of the United States into the war, both Germans and Austrians said the effective result would be more in money and materials furnished than in fighting units, due to difficulties of troop transportation. They say that it is hardly worth while attempting to capture or destroy enemy artillery because new cannon will be forthcoming from the United States.

"The Austrian people have been indifferent about the war for a long time. They want peace, any kind of a peace, and the longer the war lasts the less they have to keep the war going. The Germans are still possessed of the monomania of domination, of wishing to grab all they see, to take, take, take; but time is sure to bring them to their knees, to cut down their fighting materials, while that of the allies keeps on growing, and this is why I maintain that the allies must win if they resist, if they exert economic pressure on themselves and refuse to patch up a peace.

Now Seriously Afraid.
"The Germans are now seriously afraid of the English and French, because they realize their superiority in fighting materials.

"All that has been said about the ill treatment of the prisoners is true. They are so poorly fed that if they fall ill they are sure to die, as their bodies have no resisting power. Most of their illnesses are in the intestines

or of a bronchial nature leading to tuberculosis. Their food consists, in the camps, of soup made of beets in the proportion of one-half pound a day for each man, with sometimes a potato and two ounces of meat once a week. In the hospital of Sigmundsherg, where I served, a hospital arranged for 3,000 men, the death roll has risen from one man every two days to three and four a day.

"Prisoners put on government work last about two months. The phrase 'prisoner's step' has passed into the language, so feebly do the gangs shuffle along, without power to lift their feet from the ground. Also, the Austrian soldiers are very cruel, shooting or bayoneting prisoners for the slightest infraction of rules."

Despondency Due to Constipation.
Women often become nervous and despondent. When this is due to constipation it is easily corrected by taking an occasional dose of Chamberlain's Tablets. These tablets are easy to take and pleasant in effect.—(Adv.)

HOW TO GET RELIEF FROM CATARRH

If you have catarrh, catarrhal deafness, or head noises go to your druggist and get 1 oz. of Parmit (double strength), take this home add to it hot water and just a little sugar as directed in each package. Take 1 tablespoonful 4 times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucous stop dropping into the throat.

It is easy to make, tastes pleasant and costs little. Every one who has catarrh should give this treatment a trial. You will probably find it is just what you need.

A Perpetual War of Germs

In every human body there is continual strife between the forces of health and disease, while headaches, nervousness and frequent colds mean weakness and forerun sickness.

In changing seasons your system needs the oil-food in

SCOTT'S EMULSION

to increase the red corpuscles of the blood and create that resistive power which thwarts colds, tonsillitis, throat troubles and rheumatism.

Scott's is high-powered medicinal-food without drugs or alcohol. One bottle now may prevent a sickness.

The imported Norwegian cod liver oil used in Scott's Emulsion is now refined in our own American laboratories which guarantees it free from impurities.
